

15-C 4-piece Separator Set Ø 25-155 mm/ 400 mm

DETAIL IMAGE

DESCRIPTION

The 15-C 8883-piece separator set is used for removing ball bearings, roller bearings, inner rings, and other flat-mounted parts in craft, industry, and workshops when there is not enough space for puller jaws. The separating and pulling process is capable of initially separating these parts gently before they can be pulled off from the outside. This 4-piece set includes one separator and one puller device, as well as a pair of extensions, thereby ensuring the full range of application.

APPLICATION AREA

For pulling off ball bearings, roller bearings, inner rings and other parts that lie flat on the surface

BENEFIT

- Application-oriented assembly for universal use
- By storing it in the box, the completeness of the set can be easily overviewed.
- The sharp edges enable peeling where other peeling methods are not applicable.
- By screwing together the separating and pulling device, the highest stability during pulling is ensured.
- If the separators are screwed into the puller device the other way around, the supporting surface is enlarged and removed more gently.

OPERATION

- Press the sharp edges of the separating device behind the part
- Clamp the separating jaws using the pressure spindle by evenly tightening the adjusting nuts on the side bolts of the separating device and ensure that the separating knives sit firmly underneath the part to be removed
- Screw the pull bolt of the puller device into the threaded holes of the separating device until it stops
- Hold the separating device and securely and carefully remove the relevant part by tightening the clamping nut

MASTER DATA

GTIN [EAN]	4021176007781
Country of origin	DE
Case material	Tool steel
Series	K-15
Net weight [kg]	16,99 kg
Package contents	1 set
Packaging Act	PAP 21
Global sales capability given	Yes

SPARE PARTS

- 015270_side bolt with nut
- 018355_side screw
- 15-3_separator
- 18-3_puller
- 18-3-T_Crossbar
- 19-3-P_2_extensions for pullers
- K15/17-C_Metallkasten for 15-C + 17-C
